Dear Dr. Groisser:

I want to write and thank you for your diagnosis and treatment these past few months for the melanoma you discovered.

I am sure that I would not have been suspicious of that mole or sought treatment so quickly. Your diagnosis and treatment so early on seems to have prevented it from spreading and causing more damage.

Unfortunately in our society today, I observe that people will write to complain if everything is not perfect, but often do not take the time to say thank you.

I want to write to say THANK YOU to you and your staff for the exceptional treatment I received, and for your professionalism that literally saved my life.

I will see you in a few months at my next scheduled appointment.

Sincerely,

A handwritten signature in blue ink, appearing to read "Lester".
